The Status of Claims:

Claims 13-23, 25-26 are pending.

Claims 13-23, 25-26 are rejected.

Reasons of Allowance

The following is an examiner's statement of reasons for allowance:

The close prior art to the current invention are Kahsnitz et al (US 5,177,229) and Bremus et al (US 5,008,046) and Aslam et al (Kirk –Othermer Encyclopedia of Chemical Technology, vol. 10, 12/4/2000, p.477).

Kahsnitz et al discloses the process for the preparation of ester in the followings :

Alcohols and acids are esterified by means of liquid-phase equilibrium reactions on ion exchangers in an apparatus comprising a prereactor and a rectifying column with external reactors. The process is characterized by the fact that a portion of one of the starting compounds is fed directly to the external reactors.

Bremus et al discloses the following esterification process:

Art Unit: 1625

component of the process is a reaction column 1, comprising a plurality of bubble plates, surmounted by the rectifying section 2. The catalyst or catalyst solution, optionally after heating, is delivered through a pipe 3 to the uppermost plate of the reaction column 1, as is the fatty acid (through a pipe 4), the fatty acid being heated by means of a heat exchanger 5 before delivery to the reaction column. The fresh alkanol is delivered through a pipe 6 to a second heat exchanger 7, superheated and directly introduced into the reaction column 1 through a pipe 8 immediately above the sump of the column. Fresh alkanol refers to alkanol which has not been recycled through the process.

Furthermore, Aslam et al discloses the use of the various catalysts in the esterification process .

The instant invention, however, differs from the prior art in that there is no suggestion that there are two separate esterifications in the presence of the heterogeneous catalyst; the step is involved in removing water before feeding into the main countercurrent reactor with attached rectifying column on top. Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to " Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.
